

Metal

DESCRIPTION

Outdoor street side cabinets designed as access point for copper and fiber optic communication networks. High quality sheet steel construction for extended durability. This line of cabinets is a perfect solution for use in construction of FTTx or similar type of communication networks. The extended underground base with length of 900 mm allows for direct burial or cementing.

Cabinets are made in various sizes to suit demands of different projects. Front doors are removable without additional tools for easy and quick access. Cabinets are equipped with standard cylinder type lock. Supplied with adjustable underground base, metal mounting plate, lock, ventilation flanges, coiling for cable/duct and cable guide cross rail.
