Microduct 4way Bundle 12-8mm

12/8mm bundles of microducts are designed for long term protection of fiber optical cables and are especially suitable for installation of micro cables. Direct Bury type of microducts are thick wall products that attain their mechanical robustness and functional performance through their intrinsic thick walls and need no further protection in underground installations. The microduct are made of highdensity virgin polyethylene (HDPE). Every microduct has a permanent, co-extruded silicone compound inner liner giving a coefficient of friction of less than 0,1.

Product number	Product name	Sheath Colour (Bundle)	Tube Colour Sequence
88008412	4way 12/8mm HDPE transparent Smooth, 1000m/dr	White	EIA/TIA-598A
