

MAB optical distribution box IP55

The Fiber Optic Box MAB is used to store up to 60 splices or to terminate up to 12 fibers with SC/LC connectors in a flip tray splice system. It provides the ability to connect customers in three ways (pre-connectorized drop cables, splicing or splicing in a subscriber tray with six separate sections). The box can be equipped with an internal cover to protect the splicing section. An integrated pole mount is included, making it suitable as an access point for overhead GPON or 5G networks.

Product number	Product name	Number of splices	Number of connectors
5061012	Fibrebox MAB 60F w. splice trays cable 4x1.6-14+12x1.6-10mm IP55	60	0
5061013	Fibrebox MAB 6xSCD/LCQ w. splice trays cable 4x1.6-14+12x1.6-10mm IP55	24	12
