

DI Endstop

A high-performance DI endstop connector dedicated to direct install systems for FTTx networks (micro duct systems) to guarantee easy use and long service time. Reliable technology of push-in connection. Ultra-compact design and intuitive installation. Tried-and-tested connection technology to ensure capability for network expansion. Transparent body for easy fault location during installation. Perfect sealing IP68 for full protection against particle ingress. UL94 V-2 flame resistance for indoor installations. Safety clip as an option for preventing risk of accidental disconnection. Date coding to guarantee quality and traceability. 100% leak-tested in production. End stops are used for sealing the duct ends preventing water, moisture and dirt from entering.
