## PRODUCT SPECIFICATIONS

A high-performance, pourable liquid recommended for pulling underground fiber optic cable. It is also suitable for pulling coaxial and copper-pair cable. A thick liquid, and is applied by pouring or pumping the lubricant into the duct system. Wets and clings to cable jacket and evenly coats the jacket surface. It continues to lubricate by leaving film after its water base has evaporated. It is compatible with a broad range of cable jackets, including polyethylene (PE) types.
