## PRODUCT SPECIFICATIONS

Optic PEN Cleaner is a pen type cleaner, which allows the cleaning of the end-faces of fibre connectors and adapter ferrules. The pen cleaner features a special microfiber tissue that removes all contaminations. Its antistatic property prevents static load that could bring new contamination after the cleaning.

For 2.5 mm adaptors and connectors (SC/FC/ST/E2000).

One single unit can easily accomplish >800 cleanings.
