

Product name	Pipe snake stand PSS402 w/ 500m Ø15mm rod and 500m tape reel
Product code	1188081
GTIN	7332811135057
ETIM-Class	

## PRODUCT SPECIFICATIONS

Pipe snake stand for our cable trailers JKS2500 and JKS3500.

The pipe snake stands is equipped with a pulling/pushing device with 350kg pull/push force. IT fits onto the trailers like a regular drum axle and the hydraulic hoses is connected to the extra hydraulic outlet of the trailer. By connecting the pulling tape to the fiber glass rod you can push them together through the duct. Retracting only the fiber glass rod, you then connect the pulling tape to the cable, and use the power from the drum spinning device on the cable trailer to pull the cable.

Frame: hot dip galvanized.

Breaking force pulling tape: 2000kg.
